

Test Plan and Test Cases

Project: Import Data using Transform Maps (Spreadsheet)

Platform: ServiceNow

6.1 Test Plan

Item	Details
Objective	Confirm the import works correctly for valid, duplicate and invalid data
Environment	ServiceNow PDI
Test data	Sample employee spreadsheet (10 to 50 rows)
Tested by	<name>

6.2 Functional Test Cases

ID	Scenario	Steps	Expected Result	Actual Result	Status
TC-01	Import valid file	Load data, run transform	All rows inserted	All rows inserted	Pass
TC-02	Re-import same file	Load again, transform	No duplicates, rows updated	Rows updated	Pass
TC-03	Blank mandatory field	Remove Employee ID in a row	Row ignored / error logged	Error logged	Pass
TC-04	Wrong header name	Rename Email column	Email not mapped, visible in review	Not mapped	Pass
TC-05	Mixed-case email	Enter upper-case email	Stored in lower case (script)	Lower case	Pass
TC-06	Check Transform History	Open history record	Shows insert / update / ignore counts	Counts shown	Pass
TC-07	Non-admin user tries import	Log in as normal user	Access denied	Access denied	Pass
