

Customer Journey Map

Project: Import Data using Transform Maps (Spreadsheet)

Platform: ServiceNow

Stage	Prepare	Upload	Map	Transform	Verify
Actions	Clean spreadsheet, fix headers	Create Data Source, attach file	Create Transform Map, map fields	Run transform on Import Set	Check target table and logs
Touchpoints	Excel / CSV	Data Sources module	Transform Maps module	Import Set form	User table, Transform History
Feelings	Cautious	Hopeful	Focused	Nervous	Relieved
Pain points	Inconsistent column names	Wrong file format	Missing field maps	Errors on bad rows	Hard to trace failures
Opportunities	Standard template sheet	Format validation	Auto Map Matching Fields	Coalesce, error logs	Transform History review
