

Run Transform and Verify

Project: Import Data using Transform Maps (Spreadsheet)

Platform: ServiceNow

1. Open the Import Set record and click **Transform**.
2. Select the Transform Map and confirm.
3. Open **System Import Sets > Transform History** to view inserted, updated, ignored and error counts.
4. Open the User table and check that the imported employees appear with correct values.
5. Check **System Import Sets > Import Log** for any warnings.
